Problem FOS is currently moving Clearcase views from 'krypton' to 'borg' to create more space on 'krypton'. In this process, some of the views are becoming corrupt. Release B has stated a need for 'borg' as an X-term server when an Ultra is ready to replace it as a Clearcase server. However, FOS cannot risk the possibilities of corrupted views or other problems from moving our views again.			
Proposed Solution Keep 'borg' dedicated to being a Clearcase server until the end of Release A Integration.
